

Congratulations on your purchase of the high-quality PUCCINI EYEWEAR sunglasses. The collection includes high-quality sunglasses with polarized lenses and comfortable frames. Sunglasses, from the point of view of the provisions on the conformity assessment system, are personal protective equipment. Each pair of PUCCINI EYEWEAR sunglasses is CE marked, which means that all glasses in accordance with Regulation (EU) 2016/425 of the European Parliament and of the Council and amendments in accordance with EN ISO 12312-1. Also read the maintenance instructions before using the sunglasses. Following its provisions will ensure that the glasses will not lose their properties.

## **APPLICATION AND RESTRICTIONS FOR USE.**

PUCCINI EYEWEAR sunglasses guarantee protection against harmful UVA and UVB radiation up to 400 nm. However, they do not serve as protection against artificial light sources, for example in tanning beds, or for use as eye protection against mechanical damage. They should not be used for direct observation of the sun. PUCCINI EYEWEAR sunglasses are also not suitable for driving at nightfall or at night. If your sunglasses have a filter category of 4, they are not suitable for driving or wearing on the way. The shock resistance of the PUCCINI EYEWEAR sunglasses complies with EN ISO 12312-1. They are not indestructible and for that therefore do not protect against eye injuries. FRAMED TO PERFECTION SP. Z O.O. SP. K. excludes all liability for possible damage that occurs due to improper use. STORAGE. To prevent your lenses from scratching, it is best to store your sunglasses only in a case that is designed for it. The glasses must not be stored in direct sunlight or at very high or low temperatures.

## **CLEANING**

Be careful when cleaning glasses! Remove dirt by blowing gently on it. Polish the lenses with a soft cotton cloth or a special lens cloth. In order to protect your glasses, the manufacturer attaches a case and a cloth to each pair. Do not use paper towels or other materials containing wood fiber or other fibers cleaning materials.

## **SCOPE OF PROTECTION**

Check the glasses for possible damage before use. If the lenses have scratches or other blemishes, they should be repaired or replaced. Otherwise, FRAMED TO PERFECTION SP. Z O.O. SP. K. cannot guarantee sufficient protection against harmful sun radiation. Use only original spare parts for repairing glasses at an authorized Optical Shop which is a retail distributor of PUCCINI EYEWEAR glasses or a service at entity responsible - FRAMED TO PERFECTION SP. Z O.O. SP. K.

## **LENS SPECIFICATION AND PROTECTIVE FILTERS**

The filter is the basic feature of sunglasses, indicated on the frames, lenses or in the attached instructions. The filter guarantees protection against dangerous solar radiation. The eye perceives visible radiation in the wavelength range from 380 to 780 nm. Ultraviolet (UV) radiation belongs to the invisible radiation and is divided into three groups: UVA with a wavelength from 315 to 400 nm, UVB from 280 to 315 nm and UVC from 100 to 280 nm. Radiation below 400 nm is a threat to our eyes, and appropriate filters provide protection. Polarizing filter - sharpens the image, eliminating unnecessary reflections and glare of light from shiny surfaces. A perfect solution for drivers, it increases driving safety. Thanks to the polarization shield, the colors are real and the eyes are less tiring - PUCCINI EYEWEAR sunglasses with this filter are labeled "polarized sunglasses". Recommended filter, among others sailors and skiers, because they protect the eyes from light reflecting from snow or water. The lenses correspond to optical class 1 and have been tested in accordance with EN ISO 12312-1.

The relevant filter category and light transmittance can be found in the table below:

<b>CATEGORY 0</b> 80% - 100%	Sunglasses	Very limited protection against solar glare
<b>CATEGORY 1</b> 43% – 80%		Limited protection against solar glare
